

Aluminum Nitride (AlN) Ceramic Sheet

Item Number: KM-DG05

Introduction

Aluminum nitride (AlN) has the characteristics of good compatibility with silicon. It is not only used as a sintering aid or reinforcing phase for structural ceramics, but its performance far exceeds that of alumina.

Product number	Product regular size (mm)	
Porous aluminum nitride ceramic sheet	14*19*1	14*19*1
	20*25*1	20*25*1
	22*28*1	22*28*1
	29*42*1	17*22*0.6
	Round140.385	
Non-porous aluminum nitride ceramic sheet	6*30*1	114*114*1
	20*25*1	127*127*1
	3.6*3.6*0.385	139*190.5*1
	10*10*1	152.4*152.4*0.6
	30*30*1	152.4*152.4*1
	40*40*1	165*165*1
	50*50*1	25*98*0.635
	1016*101.60.38	50*50*0.5
	101.6*101.6*0.635	Round31*1.2
	114*114*0.385	Round26*1
	1143*114.30.635	Round72.6*0.6
	Round15*1.5	Round45*1
	Round26*1	Round45*1.5
	Round30*1	Round50*1
	Round35*1	Round50*2
	Round40*1	Round60*1
