Lithium Battery Tab Tape For Battery Lab Applications

Item Number: BC-19

Introduction

PI polyimide tape, generally brown, also known as gold finger tape, high temperature resistance 280 ℃, to prevent the influence of heat sealing of soft pack battery lug glue, suitable for soft pack battery tab position glue.

Learn More

Substrate	Polyimide film
Total tape thickness	0.060mm
tape length	33m
width	2 / 3 / 5 / 6 / 8 / 10 / 12 / 15 / 16 / 18 / 20 / 25 / 30 / 35 / 40 / 50mm(optional)
Tape Adhesion	5.39 (550) N (gf)/w.25mm
Tape Tensile Strength	122.6 (12.5) N (kgf)/w.25mm
Tape elongation	50%
Temperature resistance	220°C,10min,
chemical resistance	20% HCI, NaOH/10Hrs good
