

Optical Quartz Plate Jgs1 / Jgs2 / Jgs3

Item Number: KTOM-OQP

Introduction

The quartz plate is a transparent, durable, and versatile component widely used in various industries. Made from high-purity quartz crystal, it exhibits excellent thermal and chemical resistance.

Coefficient of Expansion	5.54×10^{-7} (K-1)
Thermal conductivity(20°C)	1.4W/m°C
Specific heat(20°C)	660J/kg°C
Softening point	1730°C
Annealing point	1250°C
