

Quartz Electrolytic Cell

Item Number: ELEQ

Introduction

Looking for a reliable quartz electrochemical cell? Our product boasts excellent corrosion resistance and complete specifications. With high-quality materials and good sealing, it's both safe and durable. Customize to meet your needs.

Specifications	10ml ~ 1000ml
Applicable temperature range	0 ~ 60°C
Sealing form	thread + apron
Material	Quartz glass + PTFE
Opening hole of electrolytic cell	Three electrode holes (6mm), Two air holes (3mm), can be customized
Specifications	10ml ~ 1000ml
