

Super Sealed Electrolytic Cell

Item Number: ELCS

Introduction

Super-sealed electrolytic cell offers enhanced sealing capabilities, making it ideal for experiments that require high airtightness.

Specification	30ml ~ 1000ml
Applicable temperature range	0 ~ 60°C
Sealed form	Thread + Apron
Material	Boron glass + PTFE
Electrolytic cell hole	Three electrode holes (6mm), two air holes (3mm), custom openings are available
