

Thin-Layer Spectral Electrolysis Electrochemical Cell

Item Number: ELCST

Introduction

Discover the benefits of our thin-layer spectral electrolysis cell. Corrosion-resistant, complete specifications, and customizable for your needs.

[Learn More](#)

Specifications	water system / non-water system
Applicable temperature range	room temperature
Sealing form	non-sealed
Material	Quartz + PTFE
Opening hole of electrolytic cell	three electrode holes (including platinum wire electrode, silver chloride electrode, platinum mesh electrode)
