Ultra-Vacuum Electrode Feedthrough Connector Flange Power Electrode Lead For High-Precision Applications

Item Number: KT-VA09

Introduction

Discover the Ultra-Vacuum Electrode Feedthrough Connector Flange, perfect for high-precision applications. Ensure reliable connections in ultra-vacuum environments with advanced sealing and conductive technology.

Learn More

Parameter Description	Options
Flange specifications	CF16, CF25, CF40, CF63, CF100, KF16, KF25, KF40, KF50, KF63 (customizable)
Lead length	100mm, 200mm, 300mm, 500mm, 1000mm (customizable)
Maximum operating temperature	400°C (customizable)
Maximum operating pressure	10^-10 Pa
Sealing material	Ceramic, metal
