

Lab-Scale Vacuum Induction Melting Furnace

Item Number: KT-VI

Introduction

Get precise alloy composition with our Vacuum Induction Melting Furnace. Ideal for aerospace, nuclear energy, and electronic industries. Order now for effective smelting and casting of metals and alloys.

[Learn More](#)

Model	Capacity (Steel)	Max. Temperature	Ultimate Vacuum	Rated Power
KT-VI5	5 kg	1700 °C (2000 °C optional)	6×10^{-3} Pa	40 Kw
KT-VI10	10 kg			40 Kw
KT-VI25	25 kg			75 Kw
KT-VI50	50 kg			100 Kw
KT-VI100	100 kg			160 Kw
KT-VI200	200 kg			200 Kw
KT-VI500	500 kg			500 Kw

Note: Custom configurations and semi-continuous melting systems are available. Contact us to discuss your specific needs.
