KINTEK SOLUTION

COMPANY PROFILE

>>> About Us

Company Profile

Kintek Solution Ltd is one technology orientated organization, team members are devoted to probing the most efficient and reliable technology and innovations in the scientific researching equipment, fields like biochemical reacting, new materials researching, heat treatment, vacuum creating, refrigerating, as well as pharmaceutical and petroleum extracting equipment.

Products & Services

Kintek Solution Ltd is headquartered in Zhengzhou, the capital city of Henan Province, China, and its core business includes the manufacture, distribution and sale of all types of scientific research equipment and laboratory consumables. The wide range of products and services covers the following main areas:

- **Sample Preparation Equipment:** We provide high-performance sample preparation equipment such as tablet presses, ball mills, vibrating sieves and tablet punching machines, which are capable of meeting a wide range of sample preparation needs and ensuring high quality experimental data and research results.
- **Thermal Equipment:** Our thermal equipment includes tube furnaces, sintering furnaces, vacuum furnaces, atmosphere furnaces, graphite furnaces, dental furnaces, rotary furnaces, and high-temperature furnaces (e.g., MPCVD, CVD, PECVD, electric rotary kilns). These facilities excel in high-temperature processing and materials synthesis, meeting a wide range of needs from basic research to industrial production.
- **Biochemical equipment:** We offer a wide range of biochemical laboratory equipment, including rotary evaporators, vacuum pumps, cold trap chillers,

heating circulators, reactors, short-range distillation equipment, sterilization equipment, and homogenizers. These equipments are widely used in the fields of chemical reaction, biological processing and pharmaceutical manufacturing.

- **Laboratory Consumables:** We supply a wide range of laboratory consumables such as fine ceramic products, electrochemical consumables, PTFE material products, high purity materials, battery materials, chemical vapor deposition materials, optical materials, thin film deposition components and glass materials. These consumables provide the necessary support for laboratories to ensure the smooth running of experimental processes.

Technological Advantages

Kintek Solution Ltd has significant technological strengths in the field of scientific research equipment and technical solutions, which enable us to stand out in a competitive marketplace and support our customers with cutting-edge technology. The following are our key technological strengths:

Advanced R&D capabilities

- **Technological Innovation:** Our R&D team is committed to exploring and developing the latest technologies to keep our equipment at the forefront of the industry through continuous technological innovation.
- **Customized solutions:** Based on the specific needs of our customers, we are able to develop and provide customized equipment to meet specific research requirements and application scenarios.
- **Cooperative R&D:** We cooperate with leading research institutes and higher education institutions around the world to carry out R&D projects on cutting-edge technologies to ensure that our technologies are always at the forefront of the industry.

High-performance equipment

- **Precision design:** Our equipment adopts advanced design concepts to ensure high precision, reliability and performance to meet the stringent requirements of scientific research and industrial applications.
- **Advanced materials:** We use high-quality materials and components to improve the durability and stability of our equipment, extend its service life and reduce maintenance costs.

Strict quality control

- Standardized production: All equipment is manufactured in accordance with international quality standards, and each production step is strictly controlled to ensure product consistency and reliability.
- Comprehensive testing: Comprehensive performance testing and quality inspection are carried out before the equipment is delivered to ensure that it meets the customer's technical specifications and operational requirements.

Comprehensive technical support

- Technical Service: Provide comprehensive technical support and after-sales service, including equipment installation, commissioning, training and maintenance, to ensure that customers can use our products efficiently.
- Rapid Response: We have established a rapid response mechanism, which can promptly solve the problems encountered by customers in the process of use and reduce equipment downtime.

Innovative technology integration

- System Integration: We integrate advanced control systems and automation technologies into our equipment to improve operational efficiency and data accuracy, and streamline operational processes.

Through these technological advantages, Kintek Solution Ltd is able to continue to provide our customers with innovative, efficient and reliable scientific research equipment and solutions to promote the continuous progress of scientific research and industrial applications.

Market position and customers

Kintek Solution Ltd is positioned in the market as a leading global provider of high-tech research equipment and solutions, specializing in biochemical reactions, new materials research, heat treatment, vacuum manufacturing, refrigeration, as well as pharmaceuticals and oil extraction. We are committed to brand leadership in research equipment by providing innovative technology and high quality equipment to meet the needs of research organizations and industrial companies in complex research and production processes.

Core Market Positioning:

- **Specialization:** We focus on high technology and scientific research, providing advanced equipment and solutions for specialized research institutes, laboratories and industrial applications.
- **High-end customers:** Our main customers include world-renowned universities, research institutes and various industrial enterprises, which usually have high requirements for equipment performance and technology.
- **Technological Innovation:** We are committed to technological innovation and customized solutions to ensure that our customers receive cutting-edge technical support to meet the ever-changing needs and challenges in the market.

Market Customer Groups:

- **Research Institutes and Universities:** including the world's leading research institutes and institutions of higher learning, who require high-performance research equipment and technical support for basic research, applied research and technology development.
- **Industrial companies:** covering a wide range of industries such as pharmaceuticals, oil extraction, new materials manufacturing and electronic materials production, these companies rely on reliable equipment and solutions to ensure product quality and productivity during production.
- **Laboratories and test centers:** organizations that provide laboratory services and quality testing, requiring accurate laboratory equipment and instruments for sample analysis and testing.
- **Technology Development Companies:** Companies that specialize in the development and application of new technologies and have a high demand for innovative equipment and technical solutions to support their R&D projects and technology validation.

Through clear market positioning and customer groups, we are committed to promoting scientific and technological progress, supporting the innovation and development of our global customers, and continuing to provide high-quality products and services to the market.

Team Introduction

The team at Kintek Solution Ltd is at the heart of the company's success. In order to realize our vision and maintain our leadership position in the field of high-tech research equipment, we are committed to building an exceptional team with the following attributes:

1. Professionalism

- **Technical Expertise:** Our team consists of technical experts and engineers in the field with deep expertise and technical backgrounds to meet complex technical challenges and innovation needs.
- **Industry experience:** We bring together professionals with extensive experience in the fields of research equipment, material science and engineering technology to ensure a precise grasp of market needs and technological trends.

2. Innovative Spirit

- **R&D-driven:** The team encourages innovative thinking and technological exploration, supports employees to participate in R&D projects on cutting-edge technologies, and continuously pushes forward the technological advancement of products and solutions.
- **Flexible Adaptation:** In the face of changing market environment, we have the ability to adapt quickly and flexibly to meet the changing needs of our customers.

3. Collaboration and Communication

- **Cross-sectoral collaboration:** The team maintains close collaboration between various departments, including R&D, production, sales and customer service, to ensure the smooth progress of projects and timely response to customer needs.
- **Efficient Communication:** Emphasize internal communication and information sharing, through efficient communication mechanisms and tools to ensure that all team members are consistent with the project goals and progress.

4. Customer Orientation

- **Customer Service:** Team members are customer-focused and committed to providing quality service and support to ensure that our customers have the best experience in using our products and solutions.

- Customized solutions: the ability to deeply understand the specific needs of customers and provide customized solutions to meet the special requirements of different customers.

5. Professional Training and Development

- Continuous Learning: We provide continuous training and learning opportunities for our team members to ensure that they are always up-to-date with the latest technology and industry knowledge.
- Career Development: We value the career development and growth of our employees, provide clear career paths and promotion opportunities, and motivate our employees to realize their personal goals and career aspirations within the company.

6. Corporate Culture

- Integrity and Responsibility: The team upholds integrity and responsibility, treats work and customers with honesty and fairness, and builds trust and long-term cooperative relationships.
- Unity and Collaboration: Focusing on the spirit of teamwork, the team emphasizes mutual support and joint efforts to achieve the company's goals and promote the overall success of the team.

By building such a highly qualified, innovation-driven and customer-oriented team, we ensure that Kintek Solution Ltd continues to lead in the field of scientific research equipment and provide excellent products and services to our customers worldwide.

At KINTEK, technology fuels our corporate spirit. This dynamic energy awaits you upon joining our team. Expect a distinctive cultural environment where our global business focus opens doors to diverse customs and traditions worldwide. Here, challenging roles promise to propel your career to new heights.

Our exceptional corporate culture sparks innovation, fosters care, and drives continuous progress among individuals and teams. Our team embodies youthfulness, positivity, enthusiasm, and a bold attitude toward challenges. Passionate about our business, our employees ardently contribute to the company's growth.

We seek individuals brave enough to embrace challenges, harbor grand ambitions, and thirst for knowledge. If you're driven by dreams and passion, and aspire to start your

entrepreneurial journey, KINTEK is the platform to actualize your career plans. We don't just offer opportunities; we pave the way for your future.

Join us at KINTEK, where innovation meets opportunity. Let's create a future that's as promising as your aspirations.

Future Plans

Kintek Solution Ltd's future plans are aimed at further strengthening our leadership position in the research equipment sector and driving the company forward in terms of technological innovation, market expansion and customer service. The following are our key future directions:

1. Technology Innovation and R&D

- Cutting-edge technology development: Continue to invest resources in the research and development of cutting-edge technologies, such as artificial intelligence, the Internet of Things and nanotechnology, in order to promote equipment intelligence and automation.
- New Product Lines: Expand existing product lines and develop equipment to meet emerging market needs, especially in the areas of biochemistry, biomedicine and high-performance materials.
- Cooperative R&D: Strengthen cooperation with international research institutes and institutions of higher learning to carry out joint R&D projects to ensure that the technology remains at the global leading level.

2. Market Expansion

- Global Market Expansion: Further expand the global market, especially in emerging markets and developing regions, establish more sales and service networks, and enhance the brand's international influence.
- Industry application: Explore and expand the application fields in other industries, such as new energy, environmental protection technology and intelligent manufacturing, to open up new business growth points.

3. Customer Service Enhancement

- Enhancement of customer support: Establish a more complete customer support system, provide 24/7 technical support and maintenance services, and ensure

the efficient experience of customers in the use of equipment.

- Customized services: Provide more customized services and solutions according to customers' individual needs to enhance customer satisfaction and loyalty.

4. Sustainable Development

- Environmentally friendly technology: Develop and adopt environmentally friendly materials and processes to reduce the environmental impact during the production and use of equipment and promote sustainable development.
- Energy saving and consumption reduction: Optimize the energy efficiency of equipment, reduce energy consumption, improve resource utilization efficiency, and support the development of green technology.

5. Internal optimization

- Intelligent management: Implement intelligent management systems and data analysis tools to improve productivity and management and reduce operating costs.
- Employee Training: Enhance employee training and skills upgrading to build a high-quality team to meet changing market demands and technological challenges.

6. Innovation ecosystem

- Establishment of innovation platform: Create innovation platforms and laboratories to support employees and partners in technological innovation and product development.
- Industry Chain Cooperation: Deepen cooperation with the upstream and downstream of the industry chain, integrate resources, and promote the development and implementation of industry technical standards and market norms.

Through these future plans, Kintek Solution Ltd will continue to lead the forefront of science and technology, provide customers with more advanced and reliable products and services, and at the same time, promote the sustainable development of the enterprise and the progress of the industry.

High Purity Gold (Au) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AU

Introduction

Looking for high-quality Gold (Au) materials for laboratory use? Look no further! We offer competitive pricing and specialize in manufacturing and customizing gold (AU) materials in various purities, shapes, and sizes to meet your specific needs.

[Learn More](#)

High Purity Platinum (Pt) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-PT

Introduction

High purity Platinum (Pt) sputtering targets, powders, wires, blocks, and granules at affordable prices. Tailored to your specific needs with diverse sizes and shapes available for various applications.

[Learn More](#)

High Purity Palladium (Pd) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-PD

Introduction

Looking for affordable Palladium materials for your lab? We offer custom solutions with varying purities, shapes, and sizes - from sputtering targets to nanometer powders and 3D printing powders. Browse our range now!

[Learn More](#)

High Purity Silver (Ag) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AG

Introduction

Looking for affordable Silver (Ag) materials for your laboratory needs? Our experts specialize in producing varying purities, shapes, and sizes to fit your unique requirements.

[Learn More](#)

High Purity Aluminum (Al) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AL

Introduction

Get high-quality Aluminum (Al) materials for laboratory use at affordable prices. We offer customized solutions including sputtering targets, powders, foils, ingots & more to meet your unique needs. Order now!

[Learn More](#)

High Purity Boron (B) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-B

Introduction

Get affordable Boron (B) materials tailored to your specific lab needs. Our products range from sputtering targets to 3D printing powders, cylinders, particles, and more. Contact us today.

[Learn More](#)

High Purity Bismuth (Bi) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-BI

Introduction

Looking for Bismuth (Bi) materials? We offer affordable laboratory-grade materials in various shapes, sizes, and purities to meet your unique requirements. Check out our sputtering targets, coating materials, and more!

[Learn More](#)

High Purity Carbon (C) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-C

Introduction

Looking for affordable Carbon (C) materials for your laboratory needs? Look no further! Our expertly produced and tailored materials come in a variety of shapes, sizes, and purities. Choose from sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Cadmium (Cd) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CD

Introduction

[Learn More](#)

High Purity Cobalt (Co) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CO

Introduction

Get affordable Cobalt (Co) materials for laboratory use, tailored to your unique needs. Our range includes sputtering targets, powders, foils, and more. Contact us today for customized solutions!

[Learn More](#)

High Purity Chromium (Cr) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CR

Introduction

Get affordable Chromium materials for your laboratory needs. We produce custom shapes and sizes, including sputtering targets, foils, powders, and more. Contact us today.

[Learn More](#)

High Purity Iron (Fe) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-FE

Introduction

Looking for affordable Iron (Fe) materials for laboratory use? Our range of products includes sputtering targets, coating materials, powders, and more in various specifications and sizes, tailored to meet your specific needs. Contact us today!

[Learn More](#)

High Purity Germanium (Ge) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-GE

Introduction

Get high-quality gold materials for your laboratory needs at affordable prices. Our custom-made gold materials come in various shapes, sizes, and purities to fit your unique requirements. Explore our range of sputtering targets, coating materials, foils, powders, and more.

[Learn More](#)

High Purity Indium (In) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-IN

Introduction

Looking for high-quality Indium materials for laboratory use? Look no further! Our expertise lies in producing tailored Indium materials of varying purities, shapes, and sizes. We offer a wide range of Indium products to suit your unique requirements. Order now at reasonable prices!

[Learn More](#)

High Purity Magnesium (Mn) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-MN

Introduction

Looking for affordable Magnesium (Mn) materials for your lab needs? Our custom sizes, shapes, and purities have got you covered. Explore our diverse selection today!

[Learn More](#)

High Purity Molybdenum (Mo) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-MO

Introduction

Looking for Molybdenum (Mo) materials for your laboratory? Our experts produce custom shapes and sizes at reasonable prices. Choose from a wide selection of specifications and sizes. Order now.

[Learn More](#)

High Purity Niobium (Nb) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NB

Introduction

Looking for customized Niobium materials for laboratory use? Our experts offer tailored solutions with different purities, shapes, and sizes at reasonable prices. Discover our wide range of Niobium products.

[Learn More](#)

High Purity Nickel (Ni) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NI

Introduction

Looking for high-quality Nickel (Ni) materials for laboratory use? Look no further than our customizable selection! With competitive prices and a range of sizes and shapes to choose from, we have everything you need to meet your unique requirements.

[Learn More](#)

High Purity Lead (Pb) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-PB

Introduction

Looking for high-quality Lead (Pb) materials for your laboratory needs? Look no further than our specialized selection of customizable options, including sputtering targets, coating materials, and more. Contact us today for competitive pricing!

[Learn More](#)

High Purity Rhodium (Rh) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-RH

Introduction

Get high-quality Rhodium materials for your lab needs at great prices. Our expert team produces and customizes Rhodium of various purities, shapes, and sizes to fit your unique requirements. Choose from a wide range of products, including sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Ruthenium (Ru) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-RU

Introduction

Discover our high-quality Ruthenium materials for laboratory use. We offer a wide range of shapes and sizes to meet your specific needs. Check our sputtering targets, powders, wires, and more. Order now!

[Learn More](#)

High Purity Antimony (Sb) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SB

Introduction

Get high-quality Antimony (Sb) materials tailored to your specific needs. We offer a wide range of shapes and sizes at reasonable prices. Browse our sputtering targets, powders, foils, and more.

[Learn More](#)

High Purity Scandium (Sc) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SC

Introduction

Looking for Scandium (Sc) materials for laboratory use? Our affordable prices and expertise in producing and customizing materials to your needs make us the perfect choice! Choose from a diverse range of shapes, sizes, and specifications.

[Learn More](#)

High Purity Selenium (Se) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SE

Introduction

Looking for affordable Selenium (Se) materials for laboratory use? We specialize in producing and tailoring materials of various purities, shapes, and sizes to suit your unique requirements. Explore our range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Silicon (Si) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SI

Introduction

Looking for high-quality Silicon (Si) materials for your laboratory? Look no further! Our custom-produced Silicon (Si) materials come in various purities, shapes, and sizes to suit your unique requirements. Browse our selection of sputtering targets, powders, foils, and more. Order now!

[Learn More](#)

High Purity Tin (Sn) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SN

Introduction

Looking for high-quality Tin (Sn) materials for laboratory use? Our experts offer customizable Tin (Sn) materials at reasonable prices. Check out our range of specifications and sizes today!

[Learn More](#)

High Purity Tantalum (Ta) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TA

Introduction

Discover our high-quality Tantalum (Ta) materials for laboratory use at affordable prices. We tailor to your specific requirements with various shapes, sizes, and purities. Explore our range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Tellurium (Te) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TE

Introduction

Discover our range of high-quality Tellurium (Te) materials for laboratory use at affordable prices. Our expert team produces custom sizes and purities to fit your unique needs. Shop sputtering targets, powders, ingots, and more.

[Learn More](#)

High Purity Titanium (Ti) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TI

Introduction

Shop for high-quality Titanium (Ti) materials at reasonable prices for laboratory use. Find a wide range of tailored products to suit your unique needs, including sputtering targets, coatings, powders, and more.

[Learn More](#)

High Purity Vanadium (V) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-V

Introduction

Looking for high-quality Vanadium (V) materials for your laboratory? We offer a wide range of customizable options to fit your unique needs, including sputtering targets, powders, and more. Contact us today for competitive pricing.

[Learn More](#)

High Purity Tungsten (W) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-W

Introduction

Find high-quality Tungsten (W) materials for your laboratory needs at affordable prices. We offer customized purities, shapes, and sizes of sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Zinc (Zn) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZN

Introduction

Find high-quality Zinc (Zn) materials for laboratory use at affordable prices. Our experts produce and customize materials of different purities, shapes, and sizes to suit your needs. Browse our range of sputtering targets, coating materials, and more.

[Learn More](#)

High Purity Zirconium (Zr) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZR

Introduction

Looking for high-quality Zirconium materials for your laboratory needs? Our range of affordable products includes sputtering targets, coatings, powders, and more, tailored to your unique requirements. Contact us today!

[Learn More](#)

High Purity Hafnium (Hf) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-HF

Introduction

Get high-quality Hafnium (Hf) materials tailored to your lab needs at reasonable prices. Find various shapes and sizes for sputtering targets, coating materials, powders, and more. Order now.

[Learn More](#)

High Purity Rhenium (Re) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-RE

Introduction

Find high-quality Rhenium (Re) materials for your lab needs at reasonable prices. We offer tailored purities, shapes, and sizes of sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Iridium (Ir) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-IR

Introduction

Looking for high-quality Iridium (Ir) materials for laboratory use? Look no further! Our expertly produced and tailored materials come in various purities, shapes, and sizes to suit your unique needs. Check out our range of sputtering targets, coatings, powders, and more. Get a quote today!

[Learn More](#)

High Purity Lanthanum (La) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-LA

Introduction

Get high-quality Lanthanum (La) materials at affordable prices for your laboratory needs. Choose from our wide range of tailored purities, shapes, and sizes to suit your specific requirements. Explore our selection of sputtering targets, coating materials, powders, wire rods, and more.

[Learn More](#)

High Purity Erbium (Er) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ER

Introduction

Looking for high-quality Erbium materials for your lab? Look no further than our affordable selection of tailored Erbium products, available in a range of purities, shapes, and sizes. Shop sputtering targets, coating materials, powders, and more today!

[Learn More](#)

High Purity Cerium (Ce) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CE

Introduction

Looking for high-quality Cerium (Ce) materials for your laboratory? Our expertise lies in producing and tailoring materials of different purities, shapes, and sizes to suit your unique requirements. We offer a range of specifications and sizes, including sputtering targets, coating materials, powders, and more, all at reasonable prices.

[Learn More](#)

High Purity Samarium (Sm) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SM

Introduction

Looking for Samarium (Sm) materials for your laboratory? We offer a wide range of sizes and specifications for sputtering targets, coating materials, powders, and more at affordable prices. Tailored to your unique requirements.

[Learn More](#)

High Purity Europium (Eu) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-EU

Introduction

Looking for high-quality Europium (Eu) materials for your lab? Check out our affordable options, tailored to your needs with various purities, shapes, and sizes. Choose from a range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Gadolinium (Gd) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-GD

Introduction

Find high-quality Gadolinium (Gd) materials for laboratory use at affordable prices. Our experts tailor materials to fit your unique needs with a range of sizes and shapes available. Shop sputtering targets, coating materials, and more today.

[Learn More](#)

High Purity Terbium (Tb) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TB

Introduction

Buy high-quality Terbium (Tb) materials at affordable prices for your laboratory needs. We offer custom shapes, sizes, and purities to fit your unique requirements. Explore our range of sputtering targets, coatings, powders, and more.

[Learn More](#)

High Purity Dysprosium (Dy) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-DY

Introduction

Looking for high-quality Dysprosium (Dy) materials for your lab? Our tailored products come in different purities, shapes, and sizes to meet your unique needs. Explore our range of sputtering targets, powders, ingots, and more at reasonable prices.

[Learn More](#)

High Purity Ytterbium (Yb) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-YB

Introduction

Looking for Ytterbium (Yb) materials for your laboratory? Our expertise is in producing tailored Yb materials of various purities, shapes, and sizes. Choose from our wide range of specifications and sizes, including sputtering targets, coating materials, powders, and more. Affordable prices.

[Learn More](#)

High Purity Lutetium (Lu) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-LU

Introduction

Buy high-quality Lutetium (Lu) materials for laboratory use at affordable prices. Our customized options include sputtering targets, coating materials, powders, and more to fit your unique needs. Shop now.

[Learn More](#)

High Purity Praseodymium (Pr) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-PR

Introduction

Find high-quality Praseodymium (Pr) materials for laboratory use at reasonable prices. Our tailored products come in various sizes and purities, including sputtering targets, coating materials, and more. Contact us today.

[Learn More](#)

High Purity Neodymium (Nd) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ND

Introduction

Looking for high-quality Neodymium (Nd) materials? Our lab-grade Nd materials come in a variety of purities, shapes, and sizes to suit your needs. Shop sputtering targets, coatings, particles, and more today.

[Learn More](#)

High Purity Holmium (Ho) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-HO

Introduction

Looking for affordable Holmium (Ho) materials for your laboratory? Our expertly produced and tailored range includes sputtering targets, powders, foils, and more - all available in a variety of sizes and shapes to fit your specific needs.

[Learn More](#)

High Purity Silicon Dioxide (SiO₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SiO₂

Introduction

Looking for Silicon Dioxide materials for your lab? Our expertly tailored SiO₂ materials come in various purities, shapes, and sizes. Browse our wide range of specifications today!

[Learn More](#)

High Purity Hafnium Oxide (HfO₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-HfO₂

Introduction

Get high-quality Hafnium Oxide (HfO₂) materials for your laboratory needs at affordable prices. Our customized products come in various sizes and shapes, including sputtering targets, coatings, powders, and more.

[Learn More](#)

High Purity Titanium Dioxide (TiO₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TiO₂

Introduction

Looking for high-quality Titanium Dioxide materials? Our tailored products suit any lab's unique requirements. Browse our range of shapes, sizes, and purities today.

[Learn More](#)

High Purity Zirconium Oxide (ZrO₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZrO₂

Introduction

Get high-quality Zirconium Oxide (ZrO₂) materials tailored to your needs. We offer a variety of shapes and sizes, including sputtering targets, powders, and more, at affordable prices.

[Learn More](#)

High Purity Tungsten Oxide (WO₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-WO3

Introduction

Looking for high-quality Tungsten Oxide (WO₃) materials? Our laboratory-grade products are tailored to your specific needs, with a range of purities, shapes, and sizes available. Shop sputtering targets, coating materials, and more.

[Learn More](#)

High Purity Niobium Oxide (Nb₂O₅) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Nb₂O₅

Introduction

Get high-quality Niobium Oxide (Nb₂O₅) materials for your lab needs at reasonable prices. We produce and customize materials to fit your unique requirements, with a range of shapes and sizes available.

[Learn More](#)

High Purity Tantalum Oxide (Ta2O5) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Ta2O5

Introduction

Find high-quality Tantalum Oxide (Ta2O5) materials for your laboratory needs at affordable prices. Our experts can tailor materials of various purities, shapes, and sizes to meet your specific requirements. Check out our range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Molybdenum Oxide (MoO₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-MoO₃

Introduction

Looking for high-quality Molybdenum Oxide (MoO₃) materials for your laboratory needs? Our company provides tailored solutions at reasonable prices. We offer a wide range of sputtering targets, coating materials, powders, and more. Contact us today!

[Learn More](#)

High Purity Scandium Oxide (Sc2O3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Sc2O3

Introduction

Find high-quality Scandium Oxide (Sc2O3) materials for laboratory use at reasonable prices. Our tailored solutions match different purities, shapes, and sizes to suit your requirements. Check out our range of sputtering targets, powders, foils, and more.

[Learn More](#)

High Purity Aluminum Oxide (Al₂O₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Al₂O₃

Introduction

Looking for Aluminum Oxide materials for your lab? We offer high-quality Al₂O₃ products at affordable prices with customizable shapes and sizes to meet your specific needs. Find sputtering targets, coating materials, powders, and more.

[Learn More](#)

High Purity Zinc Oxide (Zno) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZnO

Introduction

Find top-quality Zinc Oxide (ZnO) materials for your laboratory needs at great prices. Our expert team produces tailored materials in various purities, shapes, and sizes, including sputtering targets, coating materials, powders, and more. Shop now!

[Learn More](#)

High Purity Magnesium Oxide (Mgo) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-MgO

Introduction

Discover our range of Magnesium Oxide (MgO) materials tailored for laboratory use at affordable prices. We offer various shapes and sizes, including sputtering targets, coatings, powders, and more.

[Learn More](#)

High Purity Bismuth Oxide (Bi₂O₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Bi₂O₃

Introduction

Get high-quality Bismuth Oxide (Bi₂O₃) materials for laboratory use at reasonable prices. Choose from a wide range of sizes and shapes to suit your unique needs. Order now!

[Learn More](#)

High Purity Chromium Oxide (Cr₂O₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Cr2O3

Introduction

Looking for high-quality Chromium Oxide materials for your lab? Our range includes sputtering targets, powders, foils, and more, customized to your needs. Shop now for reasonable prices.

[Learn More](#)

High Purity Nickel Oxide (Ni₂O₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Ni₂O₃

Introduction

Find high-quality Nickel Oxide materials for your laboratory needs at affordable prices. Our tailored solutions fit your specific requirements. Discover a range of shapes, sizes, and specifications for sputtering targets, coatings, powders, and more.

[Learn More](#)

High Purity Vanadium Oxide (V2O3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-V2O3

Introduction

Buy Vanadium Oxide (V2O3) materials for your lab at reasonable prices. We offer tailored solutions of different purities, shapes, and sizes to meet your unique requirements. Browse our selection of sputtering targets, powders, foils, and more.

[Learn More](#)

High Purity Yttrium Oxide (Y2O3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Y2O3

Introduction

Get high-quality Yttrium Oxide (Y2O3) materials tailored to your unique lab requirements. Our range includes sputtering targets, coating materials, powders, and more, all at reasonable prices.

[Learn More](#)

High Purity Aluminum-Doped Zinc Oxide (AZO) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AZO

Introduction

Looking for high-quality AZO materials? Our lab-grade Aluminum-doped Zinc Oxide products are tailored to your exact specifications, including sputtering targets, powders, and more. Order now.

[Learn More](#)

High Purity Indium Tin Oxide (Ito) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ITO

Introduction

Get high-quality Indium Tin Oxide (ITO) Sputtering Targets for your lab needs at reasonable prices. Our customized options of different shapes and sizes cater to your unique requirements. Browse our range today.

[Learn More](#)

High Purity Cerium Oxide (CeO₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CeO₂

Introduction

High-quality Cerium Oxide (CeO₂) materials for laboratory use at affordable prices.

Customizable shapes & sizes. Sputtering targets, powders, 3D printing powders & more. Order now!

[Learn More](#)

High Purity Erbium Oxide (Er₂O₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Er2O3

Introduction

Find high-quality Erbium Oxide (Er₂O₃) materials at competitive prices for your laboratory needs. Our tailored solutions in different purities, shapes, and sizes suit unique requirements. Browse our sputtering targets, coatings, powders, and more.

[Learn More](#)

High Purity Samarium Oxide (Sm₂O₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Sm2O3

Introduction

Get high-quality Samarium Oxide (Sm₂O₃) materials for laboratory use at affordable prices. Our expertly produced and tailored materials come in different shapes and sizes to fit your needs. Browse our range of sputtering targets, coatings, powders, and more.

[Learn More](#)

High Purity Neodymium Oxide (Nd₂O₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Nd2O3

Introduction

Shop high-quality Neodymium Oxide materials for laboratory use at affordable prices. Our tailored products come in different purities, shapes, and sizes to meet your unique requirements. Choose from a wide range of sputtering targets, powders, and more.

[Learn More](#)

High Purity Iron Oxide (Fe₃O₄) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Fe304

Introduction

Get Iron Oxide (Fe₃O₄) materials of different purities, shapes & sizes for laboratory use. Our range includes sputtering targets, coating materials, powders, wire rods, & more. Contact us now.

[Learn More](#)

Tantalum Tungsten Alloy (TaW) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TaW

Introduction

Looking for high-quality Tantalum Tungsten Alloy (TaW) materials? We offer a wide range of customizable options at competitive prices for laboratory use, including sputtering targets, coatings, powders, and more.

[Learn More](#)

Titanium Silicon Alloy (TiSi) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TiSi

Introduction

Discover our affordable Titanium Silicon Alloy (TiSi) materials for laboratory use. Our custom production offers various purities, shapes, and sizes for sputtering targets, coatings, powders, and more. Find the perfect match for your unique needs.

[Learn More](#)

Tungsten Titanium Alloy (Wti) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-WTi

Introduction

Discover our Tungsten Titanium Alloy (WTi) materials for laboratory use at affordable prices. Our expertise allows us to produce custom materials of different purities, shapes, and sizes. Choose from a wide range of sputtering targets, powders, and more.

[Learn More](#)

Titanium Nickel Silver Alloy (Tiniag) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TiNiAg

Introduction

Looking for customizable TiNiAg materials? We offer a wide range of sizes and purities at competitive prices, including sputtering targets, coating materials, powders, and more. Contact us today!

[Learn More](#)

Aluminum Silicon Yttrium Alloy (Alsiy) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ALSiY

Introduction

Find high-quality AlSiY materials tailored to your lab's unique needs. Our affordable range includes sputtering targets, powders, wire rods, and more in various sizes and shapes. Order now!

[Learn More](#)

Lithium Aluminum Alloy (ALi) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ALi

Introduction

Looking for Lithium Aluminum Alloy materials for your lab? Our expertly produced and tailored ALi materials come in various purities, shapes, and sizes, including sputtering targets, coatings, powders, and more. Get reasonable prices and unique solutions today.

[Learn More](#)

Aluminum Chromium Alloy (AlCr) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AlCr

Introduction

[Learn More](#)

Nickel Chromium Alloy (Nicro) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NiCr

Introduction

Get high-quality Nickel Chromium Alloy (NiCr) materials for your lab needs at affordable prices. Choose from a wide range of shapes and sizes, including sputtering targets, coatings, powders, and more. Tailored to suit your unique requirements.

[Learn More](#)

Iron Gallium Alloy (Fega) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-FeGa

Introduction

Find high-quality Iron Gallium Alloy (FeGa) materials for laboratory use at reasonable prices. We customize materials to suit your unique needs. Check our range of specifications and sizes!

[Learn More](#)

Iron Telluride (Fete) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-FeTe

Introduction

Get high-quality Iron Telluride materials for your lab needs at affordable prices. Our tailored options cater to your specific requirements with a range of shapes and sizes available.

[Learn More](#)

Cobalt Telluride (Cote) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CoTe

Introduction

Get high-quality Cobalt Telluride materials for your laboratory needs at reasonable prices. We offer customized shapes, sizes, and purities, including sputtering targets, coatings, powders, and more.

[Learn More](#)

Copper Zirconium Alloy (CuZr) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CuZr

Introduction

Discover our range of Copper Zirconium Alloy materials at affordable prices, tailored to your unique requirements. Browse our selection of sputtering targets, coatings, powders, and more.

[Learn More](#)

Copper Nickel Alloy (Cuni) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CuNi

Introduction

Get high-quality Copper Nickel Alloy (CuNi) materials at affordable prices for your laboratory needs. Our customized offerings include sputtering targets, coatings, powders, and more. Order now!

[Learn More](#)

Copper Nickel Indium Alloy (Cuniin) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CuNiIn

Introduction

Looking for Copper Nickel Indium materials for your lab? Our affordable products come in different purities, shapes, and sizes to fit your needs. Browse our sputtering targets, powders, foils, and more!

[Learn More](#)

Aluminum Copper Alloy (AlCu) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AlCu

Introduction

Get high-quality Aluminum Copper Alloy (AlCu) materials for your laboratory needs at affordable prices. Customized purities, shapes, and sizes available. Shop sputtering targets, coating materials, powders, and more.

[Learn More](#)

Cobalt Silicide (Cosi2) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CoSi2

Introduction

Looking for affordable Cobalt Silicide materials for your laboratory research? We offer tailored solutions of different purities, shapes, and sizes, including sputtering targets, coating materials, and more. Explore our range now!

[Learn More](#)

Zirconium Silicon Alloy (ZrSi) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZrSi

Introduction

Discover our Zirconium Silicon Alloy (ZrSi) materials for laboratory use at affordable prices. We produce tailored materials to fit your unique requirements, offering a wide range of specifications and sizes for sputtering targets, coating materials, powders, and more.

[Learn More](#)

Nickel Silicon Alloy (NiSi) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NiSi

Introduction

Looking for Nickel Silicon Alloy materials for your lab? Our expertly produced and tailored materials come in various shapes and sizes to suit your unique needs. Get sputtering targets, coating materials, powders, and more at reasonable prices.

[Learn More](#)

Zirconium Silver Alloy (Zrag) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZrAg

Introduction

Discover affordable Zirconium Silver Alloy (ZrAg) materials for laboratory use. Our tailored solutions cater to your unique needs with varying purities, shapes, and sizes. Find sputtering targets, coatings, particles, powders, and more.

[Learn More](#)

Tin Bismuth Silver Alloy (SnBiAg) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SnBiAg

Introduction

Discover our high-quality Tin Bismuth Silver Alloy materials at reasonable prices. We offer a wide range of customized shapes and sizes for your laboratory needs. Shop sputtering targets, coatings, powders, and more today.

[Learn More](#)

Chromium Nickel Alloy (CrNi) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CrNi

Introduction

Looking for high-quality Chromium Nickel Alloy (CrNi) materials for your lab? Look no further than our expertly crafted and tailored options. Explore our wide range of sizes and specifications, including sputtering targets, coatings, powders, and more. Shop now!

[Learn More](#)

Nickel Aluminum Alloy (NiAl) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NiAl

Introduction

Looking for high-quality Nickel Aluminum Alloy materials for your lab? Our experts produce and customize NiAl materials to suit your specific needs. Find a wide range of sizes and specifications for sputtering targets, coating materials, and more at affordable prices.

[Learn More](#)

Nickel Niobium Alloy (Ninb) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NiNb

Introduction

Find high-quality Nickel Niobium Alloy (NiNb) materials for your laboratory needs. We offer tailored purities, shapes, and sizes, plus sputtering targets, coatings, powders, and more. Explore our range now!

[Learn More](#)

Iron Nickel Alloy (Feni) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-FeNi

Introduction

Discover affordable Iron Nickel Alloy materials tailored to your lab's needs. Our FeNi products come in various sizes and shapes, from sputtering targets to powders and ingots. Order now!

[Learn More](#)

Manganese Cobalt Nickel Alloy (MnCoNi) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-MnCoNi

Introduction

Get top-quality Manganese Cobalt Nickel alloy materials for your laboratory needs at affordable prices. Our customized products come in various sizes and shapes, including sputtering targets, coating materials, powders, and more.

[Learn More](#)

Boron Nitride (Bn) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-BN

Introduction

Shop Boron Nitride materials for your laboratory needs at reasonable prices. We tailor materials to your requirements with varying purities, shapes, and sizes. Choose from a wide range of specifications and sizes.

[Learn More](#)

Aluminum Nitride (AlN) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AIN

Introduction

High-quality Aluminum Nitride (AlN) materials in various shapes and sizes for laboratory use at affordable prices. Explore our range of sputtering targets, coatings, powders, and more. Customized solutions available.

[Learn More](#)

Silicon Nitride (Si₃N₄) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Si₃N₄

Introduction

Get affordable Silicon Nitride (Si₃N₄) materials for your lab needs. We produce and customize various shapes, sizes, and purities to fit your requirements. Browse our range of sputtering targets, powders, and more.

[Learn More](#)

Titanium Nitride (TiN) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TiN

Introduction

Looking for affordable Titanium Nitride (TiN) materials for your lab? Our expertise lies in producing tailored materials of different shapes and sizes to meet your unique needs. We offer a wide range of specifications and sizes for sputtering targets, coatings, and more.

[Learn More](#)

Tantalum Nitride (TaN) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TaN

Introduction

Discover affordable Tantalum Nitride materials for your laboratory needs. Our experts produce custom shapes and purities to meet your unique specifications. Choose from a variety of sputtering targets, coatings, powders, and more.

[Learn More](#)

Zinc Sulfide (ZnS) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZnS

Introduction

Get affordable Zinc Sulfide (ZnS) materials for your laboratory needs. We produce and customize ZnS materials of varying purities, shapes, and sizes. Choose from a wide range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

Molybdenum Sulfide (MoS₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-MoS₂

Introduction

Find high-quality Molybdenum Sulfide materials at reasonable prices for your laboratory needs. Customized shapes, sizes, and purities available. Browse our selection of sputtering targets, powders, and more.

[Learn More](#)

Tin Sulfide (SnS₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SnS₂

Introduction

Find high-quality Tin Sulfide (SnS₂) materials for your laboratory at affordable prices. Our experts produce and customize materials to meet your specific needs. Check out our range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

Tungsten Sulfide (WS₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-WS2

Introduction

Looking for Tungsten Sulfide (WS₂) materials for your lab? We offer a range of customizable options at great prices, including sputtering targets, coating materials, powders, and more. Order now!

[Learn More](#)

Cadmium Sulfide (CdS) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CdS

Introduction

[Learn More](#)

Boron Carbide (B4C) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-B4C

Introduction

Get high-quality Boron Carbide (B4C) materials for your laboratory needs at affordable prices. We offer tailored materials of different purities, shapes, and sizes to suit your unique requirements, including sputtering targets, coatings, particles, and more.

[Learn More](#)

Hafnium Carbide (HfC) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-HfC

Introduction

Discover our high-quality Hafnium Carbide (HfC) materials tailored to suit your unique laboratory needs. We offer various sizes and specifications of sputtering targets, coating materials, powders, and more. Get reasonable prices and excellent service. Order now.

[Learn More](#)

Tungsten Carbide (Wc) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-WC

Introduction

Looking for affordable Tungsten Carbide (WC) materials for your lab? Our expertly tailored products come in various shapes and sizes, from sputtering targets to nanometer powders. Shop now for quality materials that fit your unique needs.

[Learn More](#)

Molybdenum Carbide (Mo₂C) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Mo₂C

Introduction

Looking for high-quality Molybdenum Carbide (Mo₂C) materials for your lab? Look no further! Our expertly-produced materials come in a range of purities, shapes, and sizes to meet your unique needs. Shop sputtering targets, coatings, powders, and more today.

[Learn More](#)

Aluminum Boride (AlB₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-AIB2

Introduction

Looking for high-quality Aluminum Boride materials for your lab? Our custom-tailored AIB2 products come in various shapes and sizes to suit your needs. Check out our range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

Titanium Carbide (Tic) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-TiC

Introduction

Get high-quality Titanium Carbide (TiC) materials for your lab at affordable prices. We offer a wide range of shapes and sizes, including sputtering targets, powders, and more. Tailored to your specific needs.

[Learn More](#)

Boron Carbide (Bc) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-BC

Introduction

Get high-quality Boron Carbide materials at reasonable prices for your lab needs. We customize BC materials of different purities, shapes, and sizes, including sputtering targets, coatings, powders, and more.

[Learn More](#)

Silicon Carbide (SiC) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SiC

Introduction

Looking for high-quality Silicon Carbide (SiC) materials for your lab? Look no further! Our expert team produces and tailors SiC materials to your exact needs at reasonable prices. Browse our range of sputtering targets, coatings, powders, and more today.

[Learn More](#)

Lithium Titanate (Li₂TiO₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Li₂TiO₃

Introduction

Get high-quality Lithium Titanate materials for your lab needs at affordable prices. We offer tailored solutions with different shapes, sizes, and purities. Find sputtering targets, powders, and more in various specifications.

[Learn More](#)

Lithium Tantalate (LiTaO₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-LiTaO₃

Introduction

Find affordable Lithium Tantalate materials for laboratory use at our company. We specialize in producing tailored shapes and sizes to suit your unique needs, including sputtering targets, coating materials, and more.

[Learn More](#)

Antimony Sulfide (Sb₂S₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-Sb₂S₃

Introduction

Get high-quality Antimony Sulfide (Sb₂S₃) materials for your laboratory at reasonable prices. Our customizable products include sputtering targets, powders, foils, and more. Order now!

[Learn More](#)

Indium Selenide (In₂Se₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-In₂Se₃

Introduction

Find Indium Selenide (In₂Se₃) materials of different purities, shapes, and sizes for your lab needs. Our range includes sputtering targets, coatings, particles, and more at reasonable prices. Order now!

[Learn More](#)

Indium(Ii) Selenide (Inse) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-InSe

Introduction

Looking for high-quality Indium(II) Selenide materials for your lab at reasonable prices? Our tailored and customizable InSe products come in various purities, shapes, and sizes to suit your unique needs. Choose from a range of sputtering targets, coating materials, powders, and more.

[Learn More](#)

lithium Titanate (Litio3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-LiTiO3

Introduction

Get high-quality lithium Titanate (LiTiO3) materials for your laboratory at reasonable prices. Our tailored solutions cater to different purities, shapes, and sizes, including sputtering targets, coating materials, powders, and more. Order now!

[Learn More](#)

Lithium Cobaltate (LiCoO₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-LiCoO₂

Introduction

Find high-quality Lithium cobaltate (LiCoO₂) materials tailored to your needs at reasonable prices. Discover our range of sizes and specifications for sputtering targets, coatings, powders, and more.

[Learn More](#)

Barium Titanate (Batio3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-BaTiO3

Introduction

Discover our range of customized Barium Titanate (BaTiO3) materials for laboratory use. We provide a diverse selection of specifications and sizes for sputtering targets, coating materials, powders, and more. Contact us today for reasonable prices and tailored solutions.

[Learn More](#)

Lanthanum Fluoride (LaF3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-LaF3

Introduction

Looking for affordable Barium Titanate (LaF3) materials for your lab? Our tailored solutions fit your unique needs, with a wide range of shapes, sizes, and purities available. Explore our selection of sputtering targets, coating materials, powders, and more.

[Learn More](#)

Sodium Fluoride (NaF) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NaF

Introduction

Looking for Sodium Fluoride (NaF) materials? We offer tailored solutions of different purities, shapes, and sizes at affordable prices. Find sputtering targets, coating materials, powders, and more. Contact us today.

[Learn More](#)

Calcium Fluoride (CaF₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CaF₂

Introduction

Looking for high-quality Calcium Fluoride materials for laboratory use? Our expert team tailors different purities, shapes, and sizes to meet your specific needs. Browse our range of sputtering targets, coating materials, powders, and more. Get a quote today.

[Learn More](#)

Barium Fluoride (BaF₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-BaF₂

Introduction

Shop Barium Fluoride (BaF₂) materials at affordable prices. We tailor to your needs with a range of sputtering targets, coating materials, powders, and more. Order now.

[Learn More](#)

Magnesium Fluoride (MgF₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-MgF₂

Introduction

Looking for high-quality Magnesium Fluoride (MgF₂) materials for your laboratory needs? Look no further! Our expertly tailored materials come in a range of purities, shapes, and sizes to meet your specific requirements. Shop now for sputtering targets, powders, ingots, and more.

[Learn More](#)

Potassium Fluoride (Kf) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-KF

Introduction

Get top-quality Potassium Fluoride (KF) materials for your lab needs at great prices. Our tailored purities, shapes, and sizes suit your unique requirements. Find sputtering targets, coating materials, and more.

[Learn More](#)

Cerium Fluoride (CeF₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-CeF₃

Introduction

Looking for high-quality Cerium Fluoride materials? Our lab-grade CeF₃ is available in a variety of shapes and sizes to meet your needs. Shop now for affordable prices!

[Learn More](#)

Strontium Fluoride (SrF₂) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SrF₂

Introduction

Looking for Strontium Fluoride (SrF₂) materials for your laboratory? Look no further! We offer a range of sizes and purities, including sputtering targets, coatings, and more. Order now at reasonable prices.

[Learn More](#)

Neodymium Fluoride (NdF3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-NdF3

Introduction

Looking for Neodymium Fluoride (NdF3) materials for your laboratory? We offer a wide range of options, from sputtering targets to powders, all customizable to meet your unique needs. Discover our affordable prices now.

[Learn More](#)

Dysprosium Fluoride (DyF3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-DyF3

Introduction

Looking for Dysprosium Fluoride (DyF3) materials for your lab? We produce and customize DyF3 materials of different purities, shapes, and sizes at reasonable prices. Find sputtering targets, coating materials, powders, and more. Contact us today.

[Learn More](#)

Samarium Fluoride (SmF₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-SmF3

Introduction

Looking for high-quality Samarium Fluoride (SmF₃) materials for your lab? Look no further! Our tailored solutions come in a range of purities, shapes, and sizes to suit your unique needs. Contact us today!

[Learn More](#)

Ytterbium Fluoride (YbF₃) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-YbF₃

Introduction

Buy high-quality Ytterbium Fluoride (YbF₃) materials for your laboratory needs at affordable prices. We offer customized shapes and sizes, including sputtering targets, coating materials, powders, and more. Contact us today!

[Learn More](#)

Yttrium Fluoride (Yf3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-YF3

Introduction

Looking for high-quality Yttrium Fluoride (YF3) materials for laboratory use? Our affordable prices and expertise in producing custom shapes and sizes make us the ideal choice. Shop sputtering targets, coating materials, powders, and more today.

[Learn More](#)

Erbium Fluoride (ErF3) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ErF3

Introduction

Shop Erbium Fluoride (ErF3) materials of varying purities, shapes, and sizes for laboratory use. Our products include sputtering targets, coating materials, powders, and more. Browse now!

[Learn More](#)

Zinc Selenide (ZnSe) Sputtering Target / Powder / Wire / Block / Granule

Item Number: LM-ZnSe

Introduction

Looking for Zinc Selenide (ZnSe) materials for your laboratory? Our affordable prices and expertly tailored options make us the perfect choice. Explore our wide range of specifications and sizes today!
